

Reach Out Haiti – Help is Needed!  
January 14, 2010

Dear St. Cecilia Family;

We are sure you have seen the devastation wrought by the earthquake in Haiti. It is indeed heart-wrenching that those who have so little are visited by even more tragedy.

In an effort to see what the best approach to helping might be, we contacted Visitation Hospital Foundation, with whom you are familiar. The clinic in Haiti, built recently with your help and highly strengthened concrete, has suffered some cracks. They are concerned with aftershocks. The staff there continues tirelessly to help those in need of medical assistance.

There is desperate need for help—people have no food, water, immediate shelter, or medical care. We hope to address these needs by asking for your support to help repair the hospital and tend to the other physical needs of the people.

It is almost possible to hear God's children crying out to us in supplication. Please send in whatever you can by Friday, January 22nd. Place your donation in an envelope marked Haiti and we will help answer their call. If you choose to write a check, write it to St. Cecilia School and note that it is for Haiti.

Thank you for doing God's work,

Bea Kelly—facilitator for Reach Out Haiti Joann Borchetta—
